

**CENTRAL COAST REGIONAL WATER QUALITY CONTROL BOARD
895 AEROVISTA PLACE, SUITE 101, SAN LUIS OBISPO, CA 93401**

Water Resource Control Engineer

RPA 130-02

The Central Coast Regional Water Quality Control Board in San Luis Obispo is seeking a qualified applicant to fill a position in the Site Cleanup Program. The Water Board is a state agency with responsibility for protecting and restoring the quality of surface and groundwater in the Central Coast area.

DUTIES: Under the general supervision of a Senior Engineering Geologist, the candidate is expected to be courteous and provide timely responses to internal/external customers, follow through on commitments, and to solicit and consider internal/external customer input when completing work. Specific duties include:

- Review and comment on technical reports and plans regarding ground water investigation and cleanup.
- Prepare correspondence, technical reports and memoranda.
- Meet with responsible parties, other agency staff, stakeholders, and the general public.
- Prepare Central Coast Water Board orders and permits.
- Make presentations before the Central Coast Water Board and other public agencies.
- Inspect facilities.
- Other duties within the ability of a Water Resource Control Engineer.

DESIRABLE QUALIFICATIONS:

- Ability to work cooperatively and promote partnerships with internal staff, representatives of government agencies, and private entities.
- Excellent verbal and written communication skills.
- Good customer service skills.
- Project management skills, including the ability to manage multiple deadlines

Applicants currently must be reachable on the Water Resource Control Engineer hiring list.

This is a permanent, full-time position. Final filing date: Until filled. Submit standard State application and resume to Cyndee Jones at the above address. For more information regarding this position please contact Sheila Soderberg at (805) 549-3592.
